Comments: 5th November 2018.

Dear Sirs,

On behalf of Horsham Society, I wish to lodge a comment in respect of Planning Application DC/18/2131. This is an interesting application, being low key and in a suitable location, adjacent to existing care facilities. Thought has been given to the concept, with the central rendered entrance core dividing the block into two house.

However, the proposed building requires lifting, with the introduction of some colour. The drawings indicate that the window frames will be grey, whereas the introduction of colour to the window and door frames in the central core would serve to bring life to the building. Furthermore the proposal to use white render is a source of concern. White is particularly difficult to maintain and retain it's crisp appearance. Consideration should be given to using an 'off white' or agreeing a maintenance regime for the white render.

We trust these comments will be deemed to be constructive.

Yours faithfully,

 (secretary to Horsham Society Planning
Sub Committee)
